**FEDERAL TRADE COMMISSION**

**Agency Information Collection Activities; Proposed Collection; Comment Request; Extension**

**AGENCY:** Federal Trade Commission.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (PRA), the Federal Trade Commission (FTC or Commission) is seeking public comment on its proposal to extend for an additional three years the Office of Management and Budget (OMB) clearance for information collection requirements in its Trade Regulation Rule entitled Power Output Claims for Amplifiers Utilized in Home Entertainment Products (Amplifier Rule or Rule), (OMB Control Number 3084-0105). That clearance expires on January 31, 2021.

**DATES:** Comments must be received on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

**ADDRESSES:** Interested parties may file a comment online or on paper by following the instructions in the Request for Comments part of the SUPPLEMENTARY INFORMATION section below. Write “Amplifier Rule; PRA Comment: FTC File No. P072108” on your comment, and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue, NW, Suite CC-5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street, SW, 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

**FOR FURTHER INFORMATION CONTACT:** Jock K. Chung, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Mail Code CC-9528, 600 Pennsylvania Ave., NW, Washington, DC 20580, (202) 326-2984.

**SUPPLEMENTARY INFORMATION:**

*Title:* Amplifier Rule, 16 CFR Part 432.

*OMB Control Number:* 3084-0105.

*Type of Review:* Extension of a currently approved collection.

*Estimated Annual Hours of Burden:* 450 hours (300 testing-related hours; 150 disclosure-related hours).

*Likely Respondents and Estimated Burden:*

(a) Testing - High fidelity manufacturers - 300 new products/year x 1 hour each = 300 hours; and

(b) Disclosures - High fidelity manufacturers - [(300 new products/year x 1 specification sheet) + (300 new products/year x 1 brochure)] x 15 minutes per specification sheet or brochure = 150 hours.

*Frequency of Response:* Periodic.

*Estimated Annual Labor Cost:* \$26,130 per year (\$15,897 for testing + \$10,233 for disclosures).

*Abstract:* The Amplifier Rule assists consumers by standardizing the measurement and disclosure of power output and other performance characteristics of amplifiers in stereos and other home entertainment equipment. The Rule also specifies the test conditions necessary to make the disclosures that the Rule requires.

As required by section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the information collection requirements contained in the Commission's Amplifier Rule.

**Amplifier Rule Burden Statement:**

*Estimated annual hours of burden:* 450 hours (300 testing hours; 150 disclosure hours).

The Rule's provisions require affected entities to test the power output of amplifiers in accordance with a specified FTC protocol. The Commission staff estimates that approximately 300 new amplifiers and receivers come on the market each year. High fidelity manufacturers routinely conduct performance tests on these new products prior to sale. Because manufacturers conduct such tests, the Rule imposes no additional costs except to the extent that the FTC protocol is more time-consuming than alternative testing procedures. In this regard, a warm-up period that the Rule requires before measurements are taken may add approximately one hour to the time testing would otherwise entail. Thus, staff estimates that the Rule imposes approximately 300 hours (1 hour x 300 new products) of added testing burden annually.

In addition, the Rule requires disclosures if a manufacturer makes a power output claim for a covered product in an advertisement, specification sheet, or product brochure. This requirement does not impose any additional costs on manufacturers because, absent the Rule, media advertisements, as well as manufacturer specification sheets and product brochures, would contain a power specification obtained using an alternative to the Rule-required testing protocol. The Rule, however, also requires disclosure of harmonic distortion, power bandwidth, and impedance ratings in manufacturer specification sheets and product brochures that might not otherwise be included.

Staff assumes that manufacturers produce one specification sheet and one brochure each year for each new amplifier and receiver. The burden of disclosing the harmonic distortion, bandwidth, and impedance information on the specification sheets and brochures is limited to the time needed to draft and review the language pertaining to the aforementioned specifications.

Staff estimates the time involved for this task to be a maximum of fifteen minutes (or 0.25 hours) for each new specification sheet or brochure for a total of 150 hours (derived from [(300 new products x 1 specification sheet) + (300 new products x 1 brochure)] x 0.25 hours for each specification sheet or brochure). The total annual burden imposed by the Rule, therefore, is approximately 450 burden hours for testing and disclosures.

*Estimated annual labor cost burden:* \$26,130.

Generally, electronics engineers perform the testing of amplifiers and receivers. Staff estimates a labor cost of \$15,897 for such testing (300 hours for testing x \$52.99 mean hourly wages). Staff assumes advertising or promotions managers prepare the disclosures contained in product brochures and manufacturer specification sheet and estimates a labor cost of \$10,233 (150 hours for disclosures x \$68.22 mean hourly wages). Accordingly, staff estimates the total labor costs associated with the Rule to be approximately \$26,130 per year (\$15,897 for testing + \$10,233 for disclosures).<sup>1</sup>

The Rule imposes no capital or other non-labor costs because its requirements are incidental to testing and advertising done in the ordinary course of business.
